

Adobe Flash Projector for Windows OS

- 1) Click on **"Flash Projector"** to download the file.

Adobe Flash Player is no longer supported beyond 2020.

Please use the new installer to access your application.

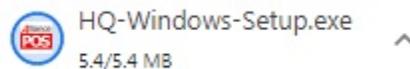

NOTE: This is for **Windows OS** only. For **Mac OS** and **Linux**, you can access the Headquarter by adding **"hqm"** extension in your browser. See sample below:

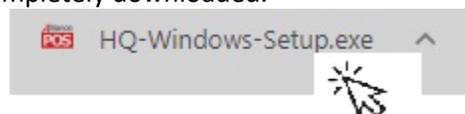

Format: [http://\(URL\)/hqm](http://(URL)/hqm)

Sample URL: <http://demo.alliancewebpos.net/hqm>

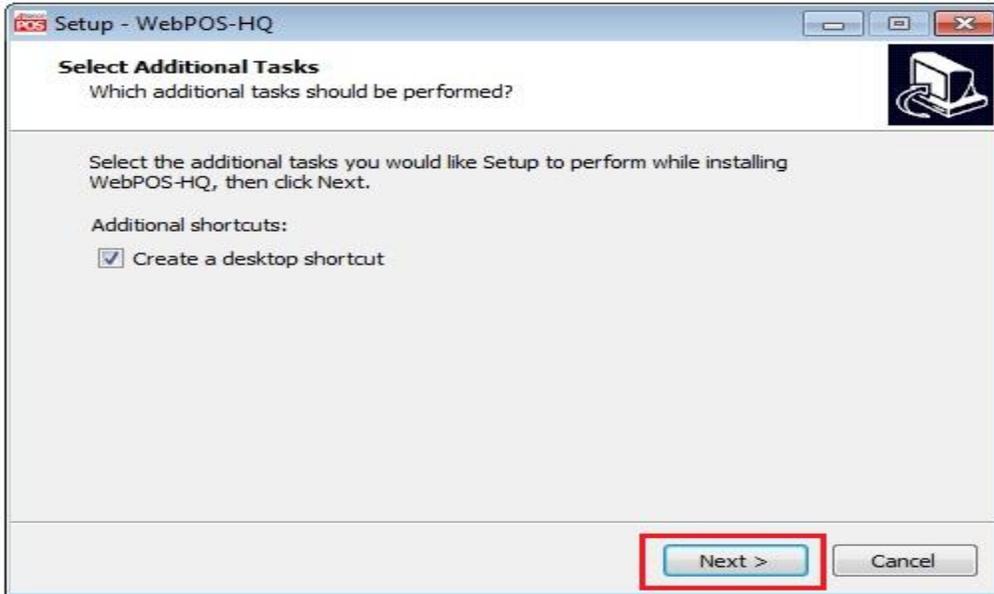

- 2) On the lower-left corner of your Browser, an application should start downloading. Wait until the download is complete.

- 3) Click the file after it is completely downloaded.

4) Click **“Next”**.

5) Input the **“URL”** of the server you wish to connect then hit **“Next”**.

SAMPLES:

[Accessing Public/Outside Server]

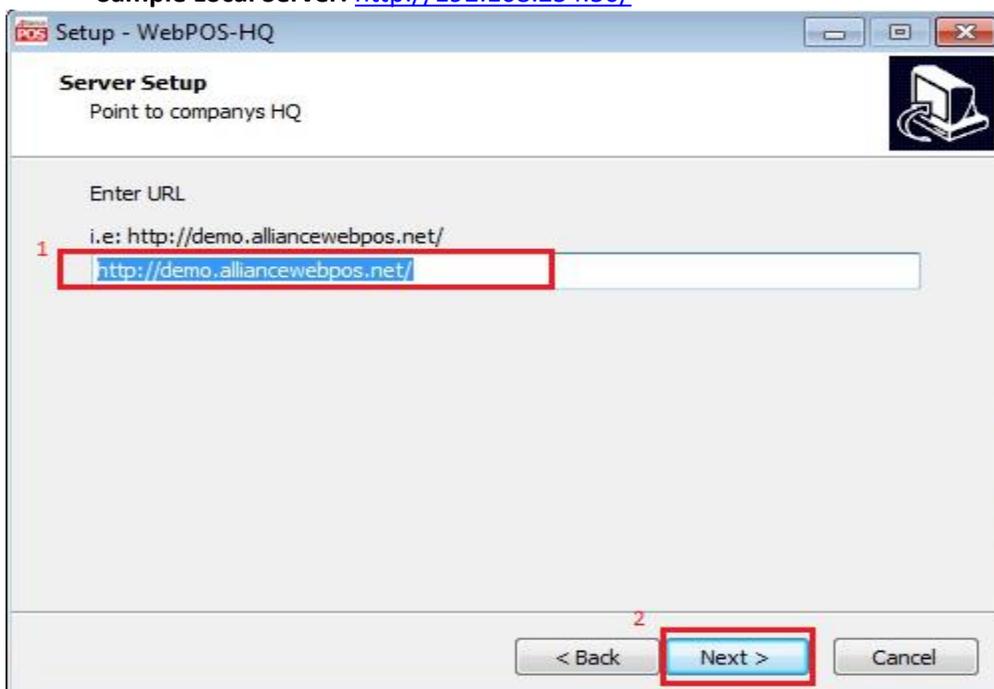

Format: [http://\(URL\)/](http://(URL)/)

Sample Public Server: <http://app.alliancewebpos.net/> - HOSTED
<http://demo.alliancewebpos.net/> - DEMO
<http://store.alliancewebpos.com/>

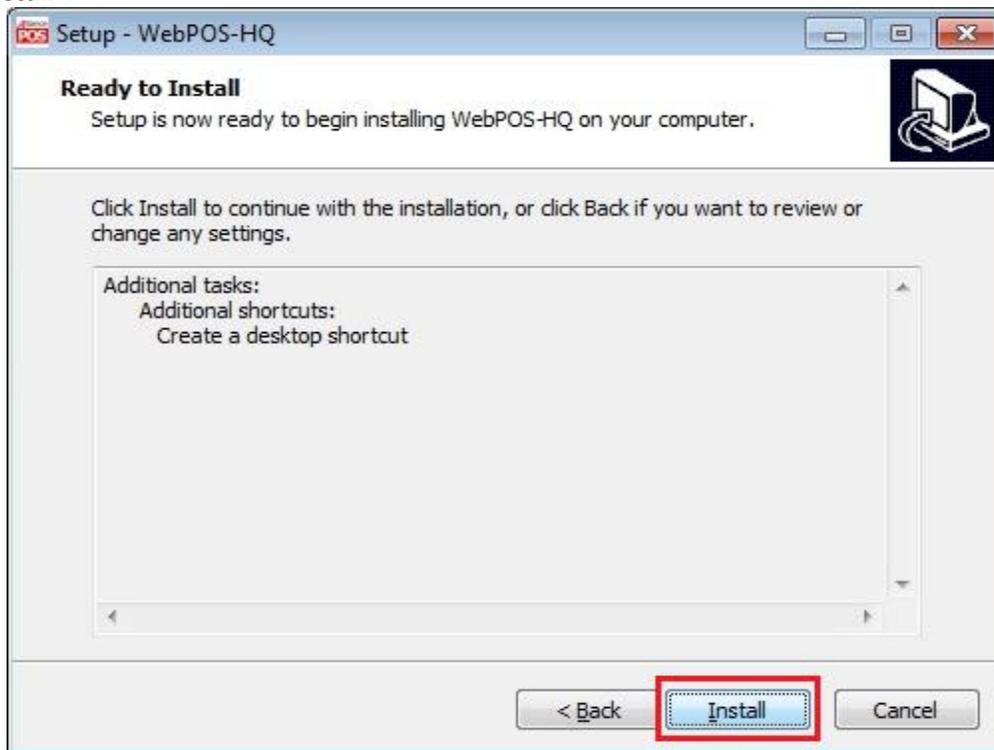

[Accessing Local/Within network Server]

Format: [http://\(Server IP address\)/](http://(Server IP address)/)

Sample Local Server: <http://192.168.254.50/>

6) Click **“Install”**.

7) Lastly, click **“Finish”**.

8) You may now login your account to start using WebPOS HQ in Adobe Flash Projector.
